Applicant Organisation: Elektr?n? profesinio mokymo centras (Lituania)

Objectives: Develop an electronic tool for the self-assessment, monitoring, guidance of the teaching competence of VET teachers and trainers.

The methodology behind the development of the tools is based on the analysis of the teaching processes and action fields of VET teachers and practical trainers in companies, in the partner countries Lithuania, Italy and Germany.

Based on the initial comparative analysis the contents of the assessment questionnaires were identified. For each competence field addressed in the questionnaires, resources for further learning are proposed.

The usage and exploitation of the Teach-VET online tool for assessment of teaching competence of the VET teachers and trainers aim to improve the effectiveness of the provided training quality and to support the competence development of VET teachers and trainers.

Duration: 24 months

Start date: 01/10/2018
